A party of about twenty sharp shooters left this city for a ten days cruise in the Winnehage Swanp. They were fully armed and equipped as the law directs. An express-wagon load of "traps" and ammunition of all kinds accompa-nied them. The ducks and water fowl of Winnebago will hear various reports of the matter. York Fribus, Fribas:

The uniform practice of the Post Office Department has been to furnish copies of the contractor's accounts when adjusted, if asked, and verified once if requested. This usage maybe extended, but no certificates of indebtedness will be issued by Mr. Holt, if the money can be raised. On the former, the Government will not be responsible.

Mail Lettings, for Virginia, North and South Carolna, Georgia and Florida, take place on the third of April. Michigan Central Railroad steamers the coming season. It is still under discussion. This company have commenced running their propellers between Detroit and Buffalo, in their freight business.

Mail Lettings, for Virginia, North and South Carolina, Georgia and Fiorida, take place on the third of April.

The belief fact is that bids will be largely increased by the present condition of the Department, as contractors will only be delayed a few week, during the first quarter of the fiscal year, even if payment be postpond antil December. They will consequently realize unusual profits on contracts, for mearly four years.

To pix Hoxonania A. T. Gerr,
Inspector Gerl of the Province- of Canada.

The Board of Trade of the City of Chicago
beg leave respectfully to represent—
That in view of the existing composition in the transportation of property between the Atlantic Cities and the West by means of Railroads and the Eric Canal, and in view of the great reduction in Tolls on the talter, this Board are of the opinion that unless the Tolls on the Welland Canal are farther materially reduced and made uniform a large portion of the trade of the West hitherto passing the Welland Canal will be directed to other rootes.

And that while it is obviously the interest of the whole Northwest, that competing routes shall exist for produce destined for the East, as well as merchandise for the West, this Board are of the opinion that the traffic through your Canal cannot be maintained under the existing Rates of Toll.

Therefore, this Board respectfully ask that the Tolls on the Welland Canal be established at the uniform rate of twenty cents per ton upon all articles herefofter charged at a higher rate, and at a rate not exceeding ten cents per ten upon mineral cost, iron ore, and articles of similar character.

The Board then went into Committee of the Whole, and discussed and amended the new Charter and By-Laws, after which they were accepted by unanimous voic.

SINGER'S SEWING MACRIER.-I have entitled THE NEW SHERMAN HOUSE,-Only a port something about the subjects upon which I write, and to the marvelous usefulness of the machine whose special excellencies are designated by the name set down at the head of this article. I can testiff at the present writing, indeed, being inspired by the music of one of them. Besides giving a tone of industry to a household, as the humming of the sewing machine does, it area ishort on anyten not readily appreciable by any one who has not seen its operations, in which it outstrips the methods of using the needles, as the race horse outstrips the sund, or the locomotive the canal boat. Orpostrion's Lives on Lake Micman,—It seems now certain that from the opening of the season of travel, a sharp competition will spring up between the great rival routes connecting that West with the Seabeard. acsing one.

An efficient operator will find her work a past-time rather than drudgery, and "put through" more sewing in one day than could be done in more serving in one day than could be done in a month by the fingers alone, and in the strength and beauty of such work as it does, Singer's Sowing Machine surpasses the skill of ordinary fingers. It has not mastered all the intricacions of needle work, to be sure, but in tucking, stitiching, gathering, and in hemming and plain seams, it works with surprising elegance and precision. Neither is its management difficult to be attained—almost any one of ordinary capability will be able to sew plain seams after two or three lessons—it will require practice, of course, to make perfect, but any woman who can rock a cradle and use her needle at the same time, need not despair of learning to use efficiently the sewing machine, and what an elegant and useful accompliahment it is to be posicessed of!

I would especially recommend Singer's Sewing Machine to farmers throughout the country, as it sews every thing from fine muslin to bags and blankets, counly well—saddlers, shoomak.

I would especially recommend Singer's Sewing Machine to farmers throughout the country, as it sews every thing from fine muslin to bags and blankets, equally well—saddlers, shoemakers, carriage trimmers and tailors pronounce is quite as available as does the dress-maker. I recommend it especially to farmers, both because it will sew any article they may require to have sewed, and because the wives and daughters of farmers, as matters stand have less leisure, and narrower opportunities for so cial and intellectual culture, than any other portion of community. In physical development and energy they have the advantage of their neighbors in cities, towns and villages, but their energies are too severely taxed in one direction—there is too little relaxation—too much work, too little play, and I know of notheing that could give our country women a more intendent.

much work, too little play, and I know of nothing that could give our country women a more useful uplift than the Introduction of Singer's Sewing Machine amongst them, which would seem a respite from labor at a wast gain of the accomplishment of labor.

These machines are so strong in construction that they are not liable to get out of order—they require but little room, and make no noise except when they are usefully employed, at which times they are a positive fascination to the junior members of the family, and will still the eries of the babies with more certainty than the most celebrated cough candy was ever said to do. One young lady assures me that he has been cured of a disappointed affection by the use of one of Singer's Sewing Machines, as it completely monopolized her thoughts, and was therefore expulsive of every other interest. Consider this, ye long list of hapless, nor longer

In addition to the preceding inducements I may add, that Singer's Sewing Machine, afterestablishing the highest reputation in the United States, carried off the first premium in France, at the "Exposition Universelle" where it was exhibited. exhibited.

For the benefit of those desirous of more particular information I may state that J. M. Singer & Co., on application at their office, by letter, 458 Broadway, New York, will forward a copy of Singer's Gazette, especially devoted to the Sewing Machine interest.

A Stroll Among the Jobb

The healthier tone of Western retail trade the present year is shown by the desire of which necessity is not in all cases the parent, to buy light, and to enjoy the same advantage at the West that the trade of New York and New England has always enjoyed, frequent bills and orders with the jobbing house.

As a whole and preparatory to a review of the results of a few hours among our jobbers, it inay he said of all that they offer to the trade indipeoments readily demonstrable from fixed

the result of our observation has been to con-rince us in the opinion-that the stocks in our mercantile houses are, though not perhaps much heavier, yet superior as compared with former seasons, and such as must command, and have commanded, the attention of judicious buyers, many of whom are for the first time making up-their bills in Chicago, or have already made them up.

when Messra. Cooley, Parwell & Co., removed to their spacious store on Wabash avenue, near Lake street, they seemed pioneers far in silvance of any setting of the jobbing trade in that direction. That vicinity within two or taree blocks distant now includes most of the leading houses in the departments of Dry Goody, the leading houses in the departments of Dry Goody, Clothing, Boots and Shoes, Hardware, Hats, Caps, and Straw goods, and Drugs.

The house we have named, Messra. Cooley, Farwell & Co., are distinguished representative house in the Wholesale Dry Goods trade in this city, and their spring stock is complete. Messrs. Bichards, Crumbaugh & Shaw, Feake, Marsh & Delong, Harmon, Aiken & Gale, Savage, Keith & Co., are also leading houses in the line of Dry Goods and Notions. Messrs. Davis, Sawyer & Co., add to the generalline of Dry Goods, an extensive and full assortment of Hats and Caps, Boots and Shoes. Messrs. Bowen Brothers to their jobbing trade in Dry Goods unite a general trade in Notions and Fancy wares, and a complete assortment of Crockery, Glass and China. J. M. Stine & Co. have a large trade in Fancy Goods and Notions. Messrs. Fisk & Ripley are largely in the line of Millinery trimming, &c.

Lawerswoarz Ctrr, March 17.—The Times of this city publishes an account of an affray at Hiton, Calhoun County, growing out of a political meeting, resulting in the wounding of several persons, one dangerously. During the meeting, which was in pursuance to a call to organize the Republican party, a disposition was manifested by persons politically opposed, to break it up. At the close a general melee ensued, is which the assailants, said to be proslavery men, were compelled to retire. Resolutions were afterwards adopted, ordering the participants in the attack to leave the Territory, under the penalty of desth; and a company was organized to carry the same into, effect.

In Dry Goods the spring stocks of the houses above named present large and varied stocks. The uncertainty as to the crop the coming season restricts operations of buyers very generally to light bills and in staples chiefly, yet even now as improvement is indicated in the feeling over the last season at this period.

Messrs. Field, Benedict & Co., are the leading exclusive cloth-house in the city. Messrs. Huntington, Wadsworth & Parks are a well and widely known house, and their spring stock is excellent and complete. Messrs. S. F. White & Bro., are in the general clothing trade, with a complete stock of gentlemen's furnishing goods. They are also large dealers in heavy Mackinaw blankets. Messrs. H. W. Hunt & Co. and Messrs. This celebrated institution, which has been in a state of suspension for a few weeks, has reappeared, in the semi-weekly state of development. Faxon is still around, as witness the following item which we clip from the local page: During the recent freshet, Mound City has been in rather a bad fix, The water in town has been too deep for wading, and not quite deep enough for swimming purposes. Mose Harrell put on a hig pair of boots, and attempted to wade from his office to his house. He had gone about half way when he mired. He struggled manfully to extricate himself, but without swall. Every effort was made by the citizens to rescue him, but owing to the quicksands they are afraid to approach him. They got as near as possible to him, and threw him provisions. At hat account he had sunk up to his chin, and was still slowly disappearing—the citizens atill continuing to fling blesienits to him, in order that he may go under with a belly full. An attempt is to be made to throw a block and tackle over the limb of a tree near by, and hoist him out. We hope it will be successful. stocks throughout the country, in the branch of trade as in all others, are without precedent low, and a steady trade in staple articles is the necessary result, most buyers, however, making up the lightest bills possible, preferring to await the first definite glimpse as to the prospects of the next wheat crop. Our wholesale grocers, however, were never before better prepared to meet all the possible wants of this market. As coming under this latter department deserves to be noticed the recent opening of Beleber's extensive sugar refinery in this city, soon to be in full operation, and to add largely to the facilities of our market.

We might thus go on to occupy much more space with a list, which is, indeed, little more than a list of establishments and firms representing the several branches of our wholesale trade. To the reference already made, we shall have been enumerated to above our readers throughout the West that Chicago is ready by her mercantile houses to meet the wants of the entire section of country which, by her railroad system, is brought to her doors, and never road system, is brought to her doors, and never before more ready or more attractive as a mar-ket than the present spring.

The Latest Kansas Excitement. The Platte City (Mo.) The Asymptotic gives a new and highly improbable version of the affair, the substance of which is that a convention at Wyandott; that the Republicans in the Convention were voted down by a large majority; that the minority then assaulted the majority and were put to indiscriminate flight, but rallied in a log house where a magazine of Sharpe's riles were stacked, and turned the tide of battle by firing and wounding five men. It is related that one of the wounded, Elliott by name, was knocked down and surrounded by fifteen armed secondrels bent upon taking his life, but that he rose and fought his way triumphantly through the gang with a piece of board. The Argus lays the whole blame on "Old Brown." It will surprise that individual (who was locturing in Cleveland a few days ago) to read that "While Brown may not have been

SPIRITUALISM. lence Between Jas. Van I

As will be perceived I have as yet received no answer to my last letter, urging one of our city clergy to debate on the ambject referred to, and concluding I should receive no written reply; I last evening called on the Reverend gentleman anne received a verbal one, informing me that he would not debate. My proposition is still open, and if he hereafter concludes "that the interests of the truth demand such a course," doubtless you will grant him the use of your columns to make it known.

If he does not, then I will hold my offer open to any of the clergy of this city who can to the assisfaction of the community hold an argument against the merits of apritualism.

With these remarks, I subjoin the following corresponeence.

You are well aware that the public press refuse (almost without an exception) to allow anything in favor of Spiritualism to pass through their columns; bence its difficult, with the present prejudice existing against it, to bring the ather side of the question, or arguments held by those who believe in the Spiritual Philosophy, reperty before the public; and, as you spoke with an much confidence against the philosophy, reperty before the public; and, as you spoke with an much confidence against the philosophy. I doubt not you are fearless of arguments being produced to sustain the subject before the subject of the search giving the matter a proper hearing before the summarity. My reasons for wishing a public debate on the merite of Spritualism are, that the subject in all its bearings, may be presented to the minds of such as are ever-willing to conden it, but on account of prejudice, will not attend the becures regalarly given in favor of Spritual doctrine, to rinform themselves of its teachings; and there are many such in our community, who would altend a discussion like the one I propose. Winar Coor.—We have sports from farmers of the prospect of the groving wheat crop, as various and condicting as new opinions. But our own conclusions from these accounts are, that the crop will be but little short of an average crop. The "wheat is coming out amazingly," is a quite frequent response to our inquiries. There was not more than two-thirds as much sown last fall as in the full previous, but the prospect of a better crop will partially supply the deficiency. Fields that have been drained are reported excellent, with no freezing out. A little drainage seems to make a surprising difference, as we have remarked more at length elsewhere. In estimating the discouraging predictions of a crop, it is well enough to bear in mind that the wheat crop is unally reported to be a failure several times before the appearance of spring.—Carlinellis [RL] Fue Des.

I learn that you think of going to the Gold
Mines this Spring. Allow me as a friend to advise you to give up the ide, as it is a fact that
those going are bound to be swfally humburged.
Five companies that left here, and vicinity, last
fall and winter have returned. The last of these
passed through here yesterday. They all give
the most discouraging accounts imaginable.
You know of course that these discouraging letters do not get into print. We see many returning who say it will not pay, and are not going to return.
Yours, de.,
Edward C. Austin.

Missionaries for Japan.

A number of the churches in New York, are at present engaged in makinathe necessary arrangements for a practical Christian Civilization Mission to Japan. The matter has been undertaken by the Foreign Board of the Reformed Dutch Church. The means to be employed in carrying on the enterprise are of a practical, illustrative and educational character. It has been determined, with a view of giving the mission this character, that it shall consist of six persons invested with peculiar abilities for the prosecution of the work. Two of these are clergy men—the Rev. S. R. Brown and the Rev. G. P. Verbeck; three of the number are ladies, and Dr. D. B. Stimmons, the sixth, is physician and surgeon. The general plan of ophysician and surgeon. The general plan of ophysician and surgeon. The general plan of ophysician and surgeon. -Letters have been received from the Rev. FATHER AND DAUGRTER; by Frairika Braner, 1 vel 19 mo. Price \$1.36. he comprehends the impossibility of unlocking it. One of the chief troubles of most bank locks is, that they get out of order. A cog is worn, or a spring falters and the lock wort turn, and then the Bank Officers are kept out as well as the burglars. But this one has no aprings. It cannot falter. It must turn when the right numbers are known, and no amount of strength can turn if when they are not.

The undersigned begs leave to say that the article alluded to above, is "Covert's Permutation Bank Lock," patented Oct. 5, 1858, which is in use by Banks in the State of New York and elsewhere, where they have given easier astifaction.

As all Banks and Bankers will of course desire to procure as early as possible, a lock without a key or key-lock, by which amateurs, burglars, picks and powder are excluded, they cannot fail to see at once their interest in refusing to adopt any other lock until having first examined this, which recommends itself.

Having concluded an arrangement for the exclusives alse of this novel invention for the colusives alse of this novel invention for the colusives alse of this novel invention for the United States and Territories, I will add, that all Banks and Bankers having purchased Bank Safes from me who desire additional security, will be supplied with this lock at a very low flywer.

anybody, so he simply added, by way of saying something: "It's impossible, sir! Utterly impossible, in'. Why?" demanded the envoy.

"Why?"—Because—hum!—because my son's origin is too obscure for him to dream of such an honer!" And pap Bunnas thought this a triumphant piece of cunning.

"Nothing of the sort, sir! And, after all," continued the envoy, with engaging modesty, "what are ser? Only parvenus. I myself once peddled oysiers! You wouldn't imagine it, I know; but it's a fact. Besides, sir, if we were to demand a Prince we should be refused; or, at all events, be fobbed off with an old and ugly one. A literary Prince—that's the ticket! Ho may write as many books and plays down there as be chooses."

Papa Dumas, terribly embarrassed, scratched his ear, and at last asid:

"Listen to me. I know Alexander tolerably well. He is continually growling about my ignorance of obusiness; and, as for taking a write upon my recommendation, he would laugh at the bare idea. Suppose we sak Thompson to upon my recommendation, he would laugh at the bare idea. Suppose we ask Thompson to break the subject to him?"

The envoy was satisfied with this plan, and Thompson was forthwith desired to repeat the proposition to Dumss, Jr. Dumas, Jr., swore that Thompson must be crays, and ordered the servant to up for a doctor. servant to go for a doctor.

"Nonsense!" interposed Thompson, "I am perfectly sane; it is you who are crazy, to refuse such a splendid opportunity. Think of a fortuse of several militons!"

"Bah!" retorted Dumas, Jr. "Too risky! If the old darkey should happen to be dethroued, I would be obliged to support the whole family."

"Not at all," replied the sagacious Thompson. "You risk nothing whatever. In case of the little secident you mention, you could take the whole connern over to the United States, and sell 'em!" From the Chemnal Gazetta.

The Sandusky Register of Tuesday has a long account of the recent detection of the imposture of Miss Mary Vincent, a noted medium of that city. The spirit with whom she professed the most familiarity was called "King." He was supposed to have lived four thousand years since, and having attained a high position in spiritual world, was now laboring for the clevation of three thousand less gifted spirits. S20 SEWING MACHINE. So strong at last had become the faith of the Sandasky spiritualists, that they agreed to submit to any test that the unbelieving might impose. Accordingly on Saturday nigh last, they consented, unknown to the medium, that a light should be struck in the midst of the hitherto darkened circle.

On the appointed evening several doubting gentlemen was present, with their cars wide open and their pockets well filled with tapers and matches. After sitting some time in the dark, the horns that lay upon the table commenced vibrating, ascended the wall, ran along the ceiling, and finally descended, touched many of the persons composing the circle. Having finished its journey, a horn began in a hoarse voice to reprove the assembly for their unbelieving and groveling minds, and requested them, if they wanted any information, to apply at once to the speaker—the Spirit of the Horn. th the same EVEN EXACTNESS as the most expen-ones in use; and more, it fastens its own ends. REPUBLICAN NOMINA

Judicial Election—Tuesday,
Ye Judget of the Superior Court.

VAN H. HIGGINA,
GRANT GOODRIGO

For Deputy Clarks of the Superior Court.

CASPAR RUTZ,
U. R. HAWY.

THE JUDICIAL ELECT
Republicans who are not anxious result of the Judicial Election, here week, all over the country as "A to occratic Victory! Chicago Relected Republicanism Routed!" will do wel themselves for the election of the tregularly nonvinited by the Bernist vention. We do not apprehend anything like a full vote; our ticket least danger; but there is ground for the masses of the people will not polla, and that the Democracy will men by Republican default. This be. Did the party own architect to dates in nomination, their allegian organization which they desire to aboutdinguel them to do their whole dimatter. Fortunately the ticket was the more of complaint. The cand Judges are mon of unimpeachable.
